Abstract:

The concept of "Great Ideological and Political Education" points out the direction for university to cultivate new talent people in the new era, and it also brings opportunities and challenges. Northeast Anti-Union Spirit is the great spirit of the China, and it is a glorious example of people devote themselves to revolutionary cause bravely. This paper explores the connotation and task of contemporary "Great Ideological and Political Education" and the spiritual value of Northeast Anti-Union Spirit. At the same time, under the background of "Great Ideological and Political Education", through the reform and innovation of classroom education mode, extracurricular practice mode, information network ideological and political education. It builds a model of cultivating new talent people by using the Northeast Anti-Union red culture, which will make ideological and political education more grounded, warmer and more powerful, further implement the fundamental task of moral education, and train people to be responsible for national rejuvenation.

Keywords: *Northeast Anti-Union Spirit, Great Ideological and Political Education, New talent people.*

I. INTRODUCTION

Northeast Anti-Union Spirit is the precious wealth of China's history. Under the background of "Great Ideological and Political Education", it is an inevitable requirement of people cultivation to integrate the Northeast Anti-Union Spirit into the university education. It is beneficial to inheritance and development. It is realized the integration of the Northeast Anti-Union Spirit and the student education in university. The purpose is to form a big pattern of ideological and political education in university in the new era.

II. CONNOTATION AND TASK OF "GREAT IDEOLOGICAL AND POLITICAL EDUCATION"

In the process of educating people in the new era, it regards "moral education" as the main objectives. Under the background of "Great Ideological and Political Education", it is the general requirement to make efforts to cultivate new talent people with the mission of national construction in university.

2.1 The Connotation "Great Ideological and Political Education".

The core of "Great Ideological and Political Education" is "integrated leadership, professional operation and collaborative education", which is the ideological and political work concept and system mechanism. The style of all-staff, whole-course and whole-course people education is constructed. "Student cultivation with moral integrity" is a comprehensive education concept, and it is the fundamental task of education. On the whole, "Great Ideological and Political Education" is still a kind of education. "What kind of people to cultivate" and "how to cultivate people" are the solved problems that ideological and political education. Combine all kinds of courses with ideological and political theory courses to form a synergistic effect. "Great ideological and political education" has broken the traditional ideological and political education courses, which the space-time and regional are limited. The teaching content has broken through the teaching restrictions in the field of ideological and political education. Under the background of "Great Ideological and Political Education". The teaching content of traditional ideological and political education has been broadened and extended. At the same time, we should make good use of the relationship among subjects. Determine the fit point between subjects and ideological and political knowledge. It is integrated into the ideological and political elements of subjects. It uses the knowledge of humanities and social and natural sciences to break down the barriers of subjects. At last, it forms a joint force of subjects. So as to face the history, the reality and the future, that play an important role in moral education.

2.2 Task of "Great Ideological and Political Education".

The central link of ideological and political education is "moral education" in university. In the process of education and teaching, high-quality education should be connected. So as to achieve the ultimate goal of all-staff, whole-course and whole-course people education. The work focuses on the "What kind of people to cultivate" and "how to cultivate people". Pay attention to the cultivation of professional knowledge, moral cultivation, struggle spirit and comprehensive quality. "Educating people" should take "moral education" as the guide. So as to achieve the ultimate goal of cultivating new talent people with ability and political integrity. Using the background of "great ideological and political education", cultivate and shape contemporary students can achieve a good educational effect.

III. CONNOTATION AND VALUE OF NORTHEAST ANTI-UNION SPIRIT

3.1 The Connotation of Northeast Anti-Alliance Spirit.

The core of the connotation can be condensed into five points: First, the patriotic spirit of loyalty and bravery to the country and the national disaster. Second, the fighting spirit of determination. Third, not

being afraid of sacrifice on the unyielding integrity and dedication. Fourth, hard struggle spirit of the bull by the horns and perseverance. Fifth, the internationalism spirit of the common destiny and resistance invasion [1]. Northeast Anti-Union Spirit is rich in connotation. Patriotism is the background of anti-Union spirit. Ideals and beliefs are the soul of Anti-Union Spirit. Daring to be the leader and sacrifice is the blood of Anti-Union Spirit. Anti-Union Spirit is a revolutionary spirit, a heroic song written in the arduous years of the War. Northeast Anti-Union Spirit is a spiritual support and strength source for killing the enemy bravely, and a valuable spiritual wealth of the people [2].

3.2 The Rich Implication and Times Value of Northeast Anti-Union Spirit.

To achieve the goal of the second century in the new journey, it is a bright times value to carry forward the Northeast Anti-Union Spirit, inherit the red genes, and explore the integration of the Northeast Anti-Union red culture into the ideological and political education. First, the noble patriotic feelings of bravery to national disaster are the strength source to encourage college students to realize the great rejuvenation of the Chinese dream; Second, the Marxist ideals and beliefs of the Northeast Anti-Union conduces to college students adhere to the national leadership. Third, the Northeast Anti-Union is not afraid of sacrifice, and dare to be the leader to take the revolutionary responsibility. It inspires and lead college students to take the great responsibility of national rejuvenation. Northeast Anti-Union Spirit was born in Baishan Blackwater and Linhai Snowfields, and it was born in the critical historical period of national survival. It has gone through the long river of years, and its times value has spanned time and space, and it is enduring for a long time [2].

3.3 The educational value of Northeast Anti-Union Spirit.

It is the innovation of the Northeast Anti-Union red culture integrate into ideological and political education, and translate into educational resources. Sublimating the red genes inheritance into educational practice is the innovation of the red culture educational mode. First, it helps to strengthen the ideological and political education function. In the process of ideological and political education, Northeast Anti-Union Spirit can be used as a resource carrier, providing a "living textbook" for ideological and political education in university. It plays a positive role in guiding college students to form correct values and social cognition. Second, it is helpful to cultivate the good moral quality of contemporary college students and to form the correct "three views". Third, it helps college students to strengthen their ideals and beliefs, establish their country feelings, and establish their ambition to serve the country. Fourth, it is helpful to cultivate the college students who work hard and dare to take on dedication, and enhance their cultural self-confidence. College students should be "firm believers and faithful practitioners" of socialism with Chinese characteristics consciously. The integration of the Northeast Anti-Union Spirit with the new talent people cultivation is a concentrated expression of the Northeast Anti-Union Spirit vitality in university. It opens up new ideas for ideological and political education in university [3].

IV. UNDER THE BACKGROUND OF "GREAT IDEOLOGICAL AND POLITICAL EDUCATION", CONSTRUCTION ON THE MODE OF THE NORTHEAST ANTI-UNION RED CULTURE CULTIVATE NEW TALENT PEOPLE

Under the background of "Great Ideological and Political Education", Northeast Anti-Union spirit connotation integrated into the ideological and political education of college students, which permeates moral education process in university, providing power and source for the healthy growth of college students.

4.1 Classroom Teaching Mode.

Classroom teaching is the main way for college students to receive education. Construct "Great Ideological and Political Education" classroom education system by reforming ideological and political courses, general education courses and specialized courses. By understanding the growth law and ideological situation of college students deeply, the main channel of ideological and political education can be effectively exerted. In the classroom teaching mode, we can carry out special teaching, create the Northeast Anti-Union Red culture MOOC, and make it into an excellent course of media, so that the abstract theories can be made concrete, popularized and visualized. The network platform resources can be shared. So that the teaching content of ideological and political courses can be richer and more vivid. The attraction and appeal of the Northeast Anti-Union red culture can be enhanced. On the other hand, college students are encouraged to investigate the materials about the Northeast Anti-Union spirit. Through the class meeting on the Northeast Anti-Union red culture, we can deepen our memory and understanding of the Northeast Anti-Union history, so that college students can accept the Anti-Union edification consciously. Really feel the profundity of the Northeast Anti-Union spirit. [4].

4.2 Extra-Curricular Practice Mode.

The extra-curricular practice diversity helps to stimulate students participation enthusiasm. Through practical activities, the richness of ideological and political education is increased, and students' participation enthusiasm is enhanced by the way of "come in" and "walk out".

By means of "come in".

Invite "five elders" (veterans, veteran cadres, old experts, old teachers, and old models) into the university classroom. Give a vivid and detailed lecture on the Northeast Anti-Union events and the hero stories. So that the Northeast Anti-Union red culture can be known by more students, and Northeast Anti-Union spirit significance can be deeply understood. College students should be understood that today's happy life is hard won truly. Encourage college students to study hard and make progress, so that become new talent people of the times who are responsible for national rejuvenation [5].

Adoption of "walk out" mode.

Northeast Anti-Union Red Education Base plays a role in education. In the history, there are a large number of anti-union sites, relics and revolutionary cultural, which are distributed widely and varied. Anti-union memorial halls, patriotic education bases and sites related to the red culture can be used as teaching sites for practical education. Organize college students in a small number of times by courses and grades. Through on-the-spot teaching, college students can have a more profound understanding of the Northeast Anti-Union glorious history, and enhance their national self-confidence [6].

In terms of methods, we can carry out colorful research activities on the Northeast Anti-Union red culture in combination with major anniversaries and important historical events. The forms of activities should reflect the characteristics of ideological and political courses that integrate theory with practice and unify knowledge and action, such as singing Anti-Union songs, having Anti-Union meals and taking the Anti-Union road. It can organize college students to take the road of war again. College students can feel the hard environment of the Northeast Anti-Union soldiers. It arouses college students' resonance with the Anti-Union red culture, promote the Northeast Anti-Union spirit into their minds. It also promotes the knowledge system transform into the belief system, and integrate the Anti-Union spirit into college students' study and life [7].

Pay attention to extra-curricular practical research to achieve practical results. In setting the theme of practical research, we should have prominent theme characteristics to achieve the expected teaching goal. Through practical research, college students not only have personal experience, but more importantly, they can have a profound feeling, which is the practical significance of practical research. Thereby enhancing the teaching effect of extra-curricular practical research.

It can be summarized in the following three aspects. First, design the links and details of practice teaching to enhance the theme connotation of practice teaching. Secondly, we should use the Northeast Anti-Union red culture resources to carry out thematic research activities according to local conditions. Third, pay attention on the Northeast Anti-Union red culture resources about the practical results of collection, processing, production and preservation.

4.3 The Reform and Innovation of Network Ideological and Political Education.

Internet has become a key field that affects economic, social development, and changes people's life style. From a single set of figures, we can see that the number of Internet users in China has increased from 538 million to 1.032 billion. The Internet penetration rate has increased from 39.9% to 73.0%. In recent 10 years, the rapid development of digital economy, instant messaging, short video, 5G, artificial intelligence, digital government construction and other information technologies, has provided technical support for the realization of ideological and political education. It made the development of the "Great Ideological and Political Education" enter the fast lane. Therefore, it is urgent to do a good job in setting up themes on the Internet, so that the mainstream value of ideological and political education can occupy the high ground of

online public opinion.

It is necessary to grasp the law and characteristics of Internet communication, strengthen the special network carrier, build a special website and network teaching platform, open the WeChat public platform, website columns and online courses for Northeast Anti-Union Spirit ideological and political education, which will become the mainstream construction of new media platforms. Through the new media platform, the Northeast Anti-Union spirit will be integrated into every corner of the campus, so as to achieve the effect of educating people silently. Through the Internet, you can tell the story of Northeast Anti-Union, remember important events, spread Chinese voice, record ordinary figures, be close to the needs of college students, and listen to their voices. You should tell stories in the way that college students like, really walk into the hearts of college students, and play the ideological and political song with a vigorous attitude on the Internet [8].

4.4 Have a Good Job in Top-Level Design, Explore and Innovate the Mechanism of "Great Ideological and Political Education".

It is necessary to adhere to the problem orientation, strengthen the system construction, implement the project traction, build a more systematic and scientific ideological and political education system of Northeast Anti-Union Red Culture. Develop a unique Northeast Anti-Union red culture classroom, and play the role of ideological and political education. From the aspects of curriculum setting and textbook compilation, we should enrich the classroom teaching materials of ideological and political education in university. Textbooks with local characteristics related to the Northeast Anti-Union Red Culture can be compiled. From the five dimensions of curriculum, daily life, subject, culture and network, we will integrate the Northeast Anti-Union red culture into the process of classroom teaching, and build the ideological and political education concept and mechanism of "integrated leadership, professional operation and collaborative education" [9,10].

V. SUMMARY

In summary, under the background of "Great Ideological and Political Education", the Northeast Anti-Union red culture integrates into the ideological and political education research in university. Various subject theory courses, extra-curricular practice activities and research activities are carried out to make ideological and political education more grounded, more temperature-sensitive, and more vigorous. It has a great significance to further carry out the fundamental task of cultivating virtuous people, guide college students to establish correct "three views", guide them to face the future correctly, and cultivate new talent people of the times who are responsible for national rejuvenation.
